BODGER'S UNRIVALLED FLOWER SEEDS

We take pleasure in presenting to our customers this season an extensive price list, covering Flower Seeds for florist and general use.

All of the old favorites are included, as well as novelties, and this year we have added various sorts of Flower Seeds not previously grown in the United States, to accommodate those of our customers who wish to entrust us with a general order.

Our extensive acreage, concentrated in one locality, under our direct supervision, gives us an opportunity for study and comparison which we believe unrivalled in the world. We have thus been enabled not only to produce valuable novelties, but also to choose the best among standard varieties and bring them to a high degree of perfection.

Our new illustrated Novelty List will be mailed a little later in the season. A copy of our Vegetable Seed List will be gladly furnished on application.

ASTERS

We have under cultivation a large tract of land of an alluvial and peat composition, which is sub-irrigated from mountain springs.

We are able to grow Asters to perfection with no trouble from the diseases common to this plant. We have no overhead moisture from the time the fields are planted to the time the seed is harvested, and our even climate, together with our work in reselecting, is enabling us to improve our strains in Asters very materially as the seasons advance.

Seed harvested under these conditions is of highest germination and more disease resisting.

NEW ASTERS OF OUR OWN PRODUCTION

Beauty Type

The Beauty type is a valuable addition to the famous American Asters. We now take pleasure in offering a real Florists' Novelty—WHITE BEAUTY—a giant pure white. This is positively a non-lateral, inasmuch as flowers of immense size, with stems 20 to 24 inches in length, can be produced without disbudding.

We have also developed, and are introducing this year, the Early Beauty Type White, which, while it is not quite so vigorous as the Late, is the true form and should be used in climates where the season is too short to develop the Late Beauties.

Also, we are introducing Beauty; Azure Fairy, Peach Blossom and Crimson, three valuable florists' colors. This now gives us a good range of color in the Beauty type.

LATE BEAUTY TYPE

Plants about 2 to 3 feet high, of branching habit, commencing to bloom in early September and lasting until destroyed by frost. Flowers large, borne on long and stout stems, from 18 to 24 inches. This applies to all of the Beauty Class, making them most desirable for cut flowers.

ASTERS—Continued

Late Beauty Type (Continued)

	Per oz	Per ¼ lb.	Per lb.
.....Carmine Rose (original Beauty introduced)75	2.50	8.00
.....Crimson, dark crimson.....	2.50	8.00	25.00
.....Lavender, light grayish lavender75	2.50	8.00

.....Rose	1.50	5.00	15.00
.....September Beauty, delicate flesh pink	1.50	5.00	15.00
.....White	2.50	8.00	25.00

A NOVELTY OF MERIT

California Giants

Since introducing the Beauty Type we have frequently received inquiries for a Crego with the robust habit of growth and length of stem that characterizes the Beauty Type. After several seasons of hybridizing and selection we now take pleasure in offering a type characterized by the Beauty's vigorous growth and the Crego or Ostrich Feather type of flower. A true non-lateral type.

We may also add, the flowers are much larger and more substantial than the Improved Crego, measuring 5 to 6 inches in diameter, and stand up well when shipped as cut flowers. Their immense size and

ASTERS—Continued

beauty, as well as their long and sturdy stems make them very attractive when arranged in floral work, and they well deserve their name:

CALIFORNIA GIANTS

Bodgers Unrivalled Flower Seeds

ZINNIA S

BODGER'S GIANT DAHLIA FLOWERED

A Florist's Moneymaker

In 1919 we offered for the first time a new type of Zinnia, the Dahlia Flowered, which we predicted would take precedence over the Grandiflora Type of Zinnia as did the Spencers over the Grandiflora type of Sweet Peas.

This year we are offering the Dahlia Flowered Zinnia in fourteen distinct shades, which we believe will please the most critical eye, and tend still further to increase the popularity of this remarkable flower.

We ask you to bear in mind that Dahlia-Flowered Zinnias come in pastel shades, and the distinctive manner in which the pigments are distributed throughout the petals makes them extremely difficult to describe. To assist in visualizing the true color, we have inserted, parenthetically, Ridgeway's Color Chart descriptions.

	Per oz.	Per ¼ lb.
.....EXQUISITE—By far the most pleasing of our collection. Truly DAHLIA flowered as regards form and size. Color light rose with center a deep rose. (Tyrian Rose)	5.00	16.00
.....ILLUMINATION—Similar to Exquisite, but a striking self color of deep rose. (Tyrian Rose).....	4.00	14.00
.....GOLDEN STATE—A very rich orange yellow (Cadmium). Yellow in the bud, turning to an attractive orange, when in full bloom	4.00	14.00
.....CRIMSON MONARCH—By far the largest and best of the red shades. Flowers often eight inches in diameter. Plants very vigorous. A marvelous production of extraordinary merit.....	4.00	14.00
.....GIANT ATTRACTION—A distinct shade of brick red (Spectrum Red) which carries its color well from the bud, and forms into an immense ball of color when in full bloom.....	4.00	14.00

ZINNIAS—Continued

Bodger's Giant Dahlia Flowered (Continued)

	Per oz.	Per ¼ lb.	
.....SCARLET FLAME—A large, beautiful, bright scarlet, with a delightful blending of orange throughout the petal. This is not a bicolor.....	4.00	14.00	
.....METEOR—A rich, glowing deep red (Spinel Red) and the darkest of all of the red shades. Fine form, with good depth of petal. Very large and more floriferous than other reds.....	4.00	14.00	
.....ORIOLE—We consider this the most beautiful of its class. It is an immense orange and gold bicolor, changing slightly as it ages, but at all times worthy of the beautiful bird for which it is named. Our cultures are limited, and we can offer Oriole in small quantities only this year.....	5.00		
.....SUNRISE—A combination of pleasing apricot shades, changing to buff as it ages. Large flowers of good form. This would be an addition to any collection.....	4.00	14.00	
.....DREAM—A fine, deep lavender, turning to purple (Mallow Purple) a new, desirable shade in Zinnias	4.00	14.00	
.....POLAR BEAR—A very large pure white, the best white yet seen in Zinnias. True Dahlia form.....	4.00	14.00	
.....BUTTERCUP—An immense deep creamy yellow. A very desirable flower, which should be included in every collection.....	4.00	14.00	
.....CANARY BIRD—A delicate shade of primrose,—very large and holds its color well until out of bloom	4.00	14.00	
	Per oz.	Per ¼ lb.	Per lb.
.....SPECIAL MIXTURE — A well blended mixture containing all the above novelties.....	1.50	4.50	15.00
.....ALL COLORS MIXED.....	.75	2.50	8.00

ZINNIAS—Continued

PICOTEE TYPE

The flowers, which are not quite as large as the Double Giants, are very effective in appearance, as the edges of the petals are all well marked with a distinct color to the body of the flower, making them very attractive as bedders and cut flowers.

	Per $\frac{1}{4}$ lb.	Per lb.
.....La France,—A beautiful soft pink, each petal distinctly tipped with deep chocolate markings.....	3.50	12.00
.....Golden Pheasant,—Gold ground tipped with maroon.....	3.00	10.00
.....All colors, mixed, including new colors from white to scarlet.....	2.50	8.00

QUILLED TYPE

.....Victory Choice Mixed, including several new colors.....	2.50	8.00
.....Achievement, Mixed	2.50	8.00

DOUBLE GIANTS

(Improved Grandiflora Robusta)

Varieties starred are our own introduction.

.....Finest Mixed75	2.50	8.00

Mammoth Early Branching Nice

This variety is now recognized as the most valuable of all Stocks for cutting purposes and the most popular for general use.

If sown early, they come into flower as early as Dwarf Ten Week varieties; the flowers are larger, and the branching habit renders them invaluable for florists.

	Per oz.	Per $\frac{1}{4}$ lb.	Per lb.

Should our foreign customers require other Flower Seeds not listed above, we are in a position to supply same at market value on receipt of order. We keep in close touch with all reliable growers, and personally inspect their crops.

For Zinnias, see pages 14-17.

*Sell Bodger's Seeds and they will
"Say It With Flowers"*

CONTRACT FOR 1922 CROP

.....1922

Between **JOHN BODGER & SONS CO., Los Angeles, California,**

And.....

.....

JOHN BODGER & SONS CO. agree to plant sufficient land under normal conditions, ordinarily to produce the amount of seed named hereafter, at prices indicated, and will deliver the seed in merchantable condition at nearest terminal point in California as soon as practicable after harvest.

JOHN BODGER & SONS CO. will accept contracts only as long as the condition of the crops is favorable enough to justify their accepting same, but in event of short crops will fill pro rata only.

Bags or containers will be charged at market value.

TERMS: F.O.B. California terminal, flower and vegetable seeds, 60 days net or 2 per cent discount for cash within 30 days from date of invoice. Beans, sight draft against bill-of-lading. All overdue accounts subject to sight draft without further notice.

NON-WARRANTY. We exercise the greatest care in growing and harvesting our seeds, roguing our crops under personal supervision, to the best of our ability, true to name, and send out nothing but what we believe will give satisfaction. It must, however, be expressly understood that we warrant neither growth, description nor productiveness of any seeds we deliver, nor will we hold ourselves responsible for the crop raised from any of the seeds we grow.

If our goods are not accepted on these terms, we should be notified at once.

Our seeds have now been selling on their merits for the past twenty-eight years, and by observing the steadily increasing demand we believe they have given general satisfaction; but should any variety not have been as represented, we hope our patrons will advise forthwith.
